

KITEZH AND ORION WISH LIST FOR 2006

WHY GIVE TO KITEZH?

In our society anyone who acquires a level of wealth or power naturally feels the need to put it to good use, to change the world around them for the better. Giving financial support to a project that reflects this desire means that you are not just giving a penny to a beggar on the street, but you are participating in an effort to build a stronger base for society.

Everyone who visits one of our villages can give in their own way. It may be to support KitezH financially, maybe to bring special expertise or information, or simply to come and give love and understanding to our children.

Should you feel that you are able to offer support financially, there are many options. We need:
